OBJECTIVE

To secure a full-time position as a Software Engineer with the opportunity to apply technical expertise in designing, developing, and maintaining high-quality software applications that meet the demands of the organization.

EDUCATION

University of Santo Tomas, Manila
Bachelor of Science in Computer Science
Dean's Lister school year 2022-2023 1st semester
August 2020 – June 2024

Divine Light Academy, Bacoor
June 2018 – March 2020

WORK EXPERIENCE

People Engagement Intern, Philip Morris International, Taguig, Philippines
June 2023 – August 2023
- Developed a point redemption system as a new feature for SINAG, the gratitude platform used by the employees based in the Philippines.
- Designed prototypes and mapped out the end-to-end process for the redemption system, ensuring a user-friendly and efficient experience.
- Implemented the designed redemption system, expanding the functionality of SINAG and enhancing employee engagement.

EXTRA-CURRICULAR ACTIVITIES

TomasinoWeb, University of Santo Tomas
Web Tech Staff, September 2020 - 2022
- Managed the website's articles.

SKILLS & ABILITIES

- Programming: Proficient in HTML, CSS, Javascript, and Java; well-versed in developing web applications and responsive designs. Familiar with PHP for backend development, SQL for database management, XML for data exchange, and Android Studio for mobile app development.
- Data Analytics: Familiar with Power BI and able to extract insights from data to make informed business decisions.
- Image Editing and Prototyping: Skilled in Adobe Photoshop for editing images and creating graphics. Proficient in Figma and Canva for designing prototypes and mockups for web and mobile applications.
- MS Office: Competent in using MS Office tools, including MS PowerPoint for creating presentations and MS Excel for data analysis and spreadsheet management.
